PURPOSE

The purpose of this report is to provide a summary of the performance of Council's investments as at 29 February 2024.

All investments are undertaken and reported in compliance with the requirements of the Local Government Act 1993, the Local Government (General) Regulation 2005 and Council's policy on investments.

RECOMMENDATION

1. That the report be received and noted.

REPORT

In accordance with Council's Investment Policy, investments are selected with the objective of generating additional income revenue streams, whilst balancing liquidity to meet organisational cash flow requirements.

Term deposits are made across several financial institutions to spread risk, with the majority currently having terms over 180 days to benefit from higher returning interest yields. Council's Investment Policy allows for 10% of its portfolio to be invested with Ministerial Approved Investments with NSW Treasury Corporation. Floating Rate Notes are also permissible within defined portfolio institution and credit rating thresholds.

Table 1 lists the terms and rate of return of all of Council's investments including the interest earned for Term Deposits held to maturity.

Council's investment portfolio posted a marked-to-market return of 5.67%pa (0.44% actual) versus the bank bill index benchmark return of 4.43%pa (0.34% actual). For the past 12 months, the investment portfolio has returned 4.81% versus the benchmark's 4.10%.

Attachment 1 – Investment Summary Report also provides additional detail on the value of accrued interest earnings for each investment holding.
